### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 12-20 have been canceled.

2. Applicant's election of Group I, claims 1-11 in the reply filed on 4/21/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). This application is in condition for allowance except for the presence of claims 12-20 directed to inventions which were non-elected without traverse. Accordingly, claims 12-20 have been cancelled, as indicated above.

3. The following is an examiner's statement of reasons for allowance: Claim 1 and the claims dependent thereon are allowable since the prior art does not disclose a method for producing a tampon as claimed, including steps of loading a tampon from an infeed carrier into a split compression mold by a transfer member, compressing the

tampon in the split compression mold, unloading the tampon from the split compression mold and loading it into a split stabilization mold using the transfer member, applying a gas to the tampon in the stabilization mold, opening the stabilization mold, and loading the tampon into a discharge carrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
